TAC’s Annual Cybersecurity Compliance Training
Fulfill Your State-Mandated Training Requirement

The Texas Association of Counties’ (TAC) cybersecurity training course is certified to fulfill the requirements of Texas House Bill 3834.

In compliance with the 2019 bill, all local government and state agency employees, and state agency contractors, who have access to a government computer system or database must complete annual cybersecurity training that has been certified by the Texas Department of Information Resources (DIR).

The cost of the 45-minute online training course is just $9 per user. Individuals who are required to take a certified training course must complete the course by June 14 each year.

Compliance Made Easy

TAC’s cybersecurity training comes with everything you need to monitor progress and ensure compliance.

- Run on-demand tracking and completion reports.
- Monitor progress in real-time in an administrator dashboard.
- Add new users.
- Print completion certificates.

TAC also provides incredible customer service support throughout the course year if you need assistance. Enroll your team today.
Texas House Bill 3834 Explained

- The bill requires that all state and local government employees and contractors with access to their respective government computer systems or databases complete an annual cybersecurity training course certified by DIR.
- The training course must be completed by June 14 each year to fulfill requirements.
- Local governments and state agencies must report compliance for its employees through a form on DIR’s website by June 15 each year. Visit county.org/Cybersecurity for more information.

**TAC encourages entities to enroll their entire staff using TAC’s user import template for the most efficient enrollment and training implementation.**

Visit www.county.org/Cybersecurity for information on how to enroll your employees.

**Contact TAC’s Cybersecurity Training Support Team at SecurityTraining@county.org or (800) 456-5974 with any questions.**
